

iDOL 65 Camera

A pig weighing camera for finishers that provides continuous weight monitoring aimed to improve your farm management and reduce costs.

MANAGEMENT

iDOL 65 Camera

We have revolutionized the process of automated pig weighing by introducing the iDOL 65 camera. A next generation pig weighing camera that helps you continuously monitor your pigs.

Are you facing daily challenges with your farm management of pigs when it comes to:

- predicting when ready for slaughter?
- time consumed on manual weighing?
- planning shipping & ordering of truck to the slaughter house?
- calculating Feed Conversion Ratio?
- optimizing your feeding strategy?
- monitoring health and weight gain insights?

Overcome farm management nightmares with one of the most vital factors - Weight

In modern-day pig farming, farmers, growers and integrators around the world still struggle to optimize daily management of pigs and improve production efficiency, due to factors such as shortage of skilled labor and labor costs. Another challenge for pig farmers is the lack of monitoring daily data e.g. pig weight.

Weighing pigs with the iDOL 65 Camera enables you to gain an average of \$.4 extra per pig upon shipping pigs at the optimal slaughter weight to the slaughter house. Not being able to continuously monitor pig weight can be a costly affair to your business. Every pig is unique and therefore, has its own drinking, eating and sleeping habits. To this, their weight gain differs, but the iDOL 65 Camera makes it possible for you to continuously monitor a pen's daily:

- average weight
- minimal weight
- maximal weight
- weight gain

Knock-on values of the iDOL 65 Camera

iDOL 65 Camera is your answer for optimizing and easing-up your daily farm management. It helps you:

- know the exact value and performance of your livestock
- decrease production costs
- improve your livestock performance
- monitor your pigs weight in a convenient way with less stress
- improve animal welfare

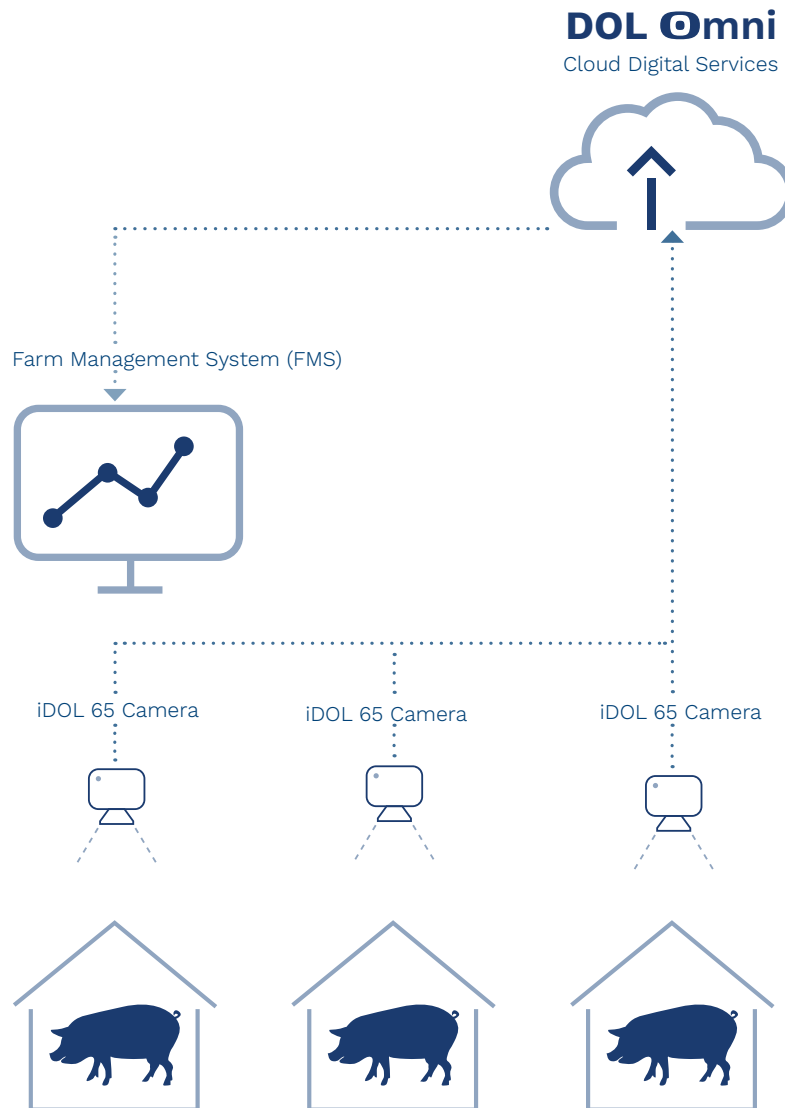

Omni Cloud User Guide

How to get started?

The iDOL 65 camera is based on 3D camera technology and proprietary data processing algorithms. The iDOL 65 camera is connected to the DOL Omni Cloud™ where all data is available through the DOL Omni User Interface or your Farm Management System via the DOL Omni API. Are you ready to improve your performance using vital production data? Simply contact your Farm Management System provider.
